INDEX TO VOLUME 97

Additions 9–38, 291–327
Additions to the preliminary checklist of the vascular flora of Connecticut 9–38
Algae 275–279, 328–338
Allelopathic effects of *Lantana camara* (Verbenaceae) on morning glory (*Ipomoea tricolor*). 264–274
Allelopathy 264–274
Allison, Taber D. 357–374
Amelanchier nantucketensis 339–349
Anderson, Gregory J. 185–200
Antennaria 1–8
Arabideae 185–200
Arabis 109–163

Beck, Kathryn A. 201–207, 350–356
Bidens laevis 280–282
Bog 39–92
BOOK REVIEWS:
Asteraceae, Cladistics & Classification. 176–178
A Guide to Wildflowers in Winter: Herbaceous Plants of Northeastern North America. 380–381
Plant Identification Terminology: An Illustrated Glossary. 283–284
Brassicaceae 109–163, 185–200

Campbell, Christopher S. 339–349
Canada 171–175, 245–254, 255–263
Canada yew 357–374
Caplow, Florence E. 201–207, 350–356
Casado, Christina M. Allelopathic effects of *Lantana camara* (Verbenaceae) on morning glory (*Ipomoea tricolor*). 264–274
Catling, Paul M., Jacques Cayouette, and Joseph Postman. *Fragaria multicipita*, reduced to the rank of forma. 245–254
Cayouette, Jacques 245–254
Chantransia stage 328–338
Chmielewski, Jerry G. Chromosome number determinations for Newfoundland species of *Antennaria* Gaertner (Asteraceae, Inuleae) 1–8
Chromosome number determinations for Newfoundland species of *Antennaria* Gaertner (Asteraceae, Inuleae) 1–8
Chromosome number of *Saxifraga gaspensis* Fernald 171–175
Chromosome numbers 1–8, 171–175
Cleland, Maryke A. 185–200
Colt, L. C., Jr. Studies on New England Algae II: A second station in Maine for *Nitella tenuissima* (Desv.) Kuetzing. 275–279
Connecticut 9–38
Conservation 185–200
Conservation status 255–263
Contributions to the flora of Vermont. 291–327
Crow, Garrett E. 39–92
Cuba 96–97
Cytology 109–163

Deer browsing 357–374
Deletions 291–327
Dibble, Alison C. and Christopher S. Campbell. Distribution and conservation of Nantucket shadbush, *Amelanchier nantucketensis* (Rosaceae). 339–349
Dignard, N., R. Lalumière, and M. Julien. *Gentiana nivalis* L. (Gentianaceae) new to Québec. 375–379
Dignard, Norman 171–175
DiGregorio, Mario. New Barnstable county records. 280–282
Discovery rate 291–327
Disease 245–254
Distribution 171–175, 375–379
Distribution and conservation of Nantucket shadbush, *Amelanchier nantucketensis* (Rosaceae). 339–349
Drosera anglica 164–170
Drosera anglica × *D. linearis* 164–170
Drosera linearis 164–170

Endangered species 291–327
Endemism 171–175, 245–254, 339–349
Eriogonoideae 350–356
Eriogonum codium 350–356
Eriogonum codium (Polygonaceae: Eriogonoideae), a new species from southcentral Washington. 350–356
Error rate 291–327
Exotic weeds 264–274

Fahey, Linda L. and Garrett E. Crow. The vegetation of Pequawket Bog, Ossipee, New Hampshire 39–92
Flora 9–38, 291–327
Floristics 350–356
Ford, Bruce A. Status of the deerberry, *Vaccinium stamineum* L. (Ericaceae), in Canada. 255–263
Fort Devens, Massachusetts 208–244
Fragaria multicipita 245–254
Fragaria multicipita, reduced to the rank of forma. 245–254
Fragaria virginiana 245–254
Freshwater algae 328–338

Gaspé Peninsula 171–175
Geltman, Dmitry V. *Urtica chamaedryoides* Pursh (Urticaceae) reported as new to Cuba. 96–97
Gentiana nivalis 375–379
Gentiana nivalis L. (Gentianaceae) new to Québec. 375–379
Germination 264–274
Gervais, Camille, Norman Dignard, and Rosaire Trahan. The chromsome number of *Saxifraga gaspensis* Fernald. 171–175

Hanford Nuclear Reservation 201–207, 350–356
Hudson River 328–338
Hunt, David M., Karen B. Searcy, Robert E. Zaremba, and C. Roberta Lombardi. The vascular plants of Fort Devens, Massachusetts. 208–244
Hybrids 164–170

Immigration 291–327
Ipomoea tricolor 264–274

James Bay 375–379
Jenkins, Jerry and Peter F. Zika. Contributions to the flora of Vermont. 291–327
Julien, M. 375–379

Labrador 375–379
Lalumière, R. 375–379
Land-use history 357–374
Lantana camara 264–274
Les, Donald H., Gregory J. Anderson, and Maryke A. Cleland. Sterility in the North American lake cress, *Neobeckia aquatica* (Brassicaceae): Inferences from chromosome number. 185–200
Lesquerella douglasii 201–207
Lesquerella tuplashensis 201–207
Lombardi, C. Roberta 208–244

Maine 275–279, 339–349
Marsh sow-thistle 93–95
Marsh sow-thistle (*Sonchus palustris*) in North America 93–95
Massachusetts 208–244
Mehrhoff, Leslie J. Additions to the preliminary checklist of the vascular flora of Connecticut. 9–38
Mertensia maritima 280–282
Morning glory 264–274
Morton, J. K. and Joan M. Venn. The marsh sow-thistle (*Sonchus palustris*) in North America 93–95
Mulligan, Gerald A. Synopsis of the genus *Arabis* (Brassicaceae) in Canada, Alaska and Greenland. 109–163
Mycoplasma 245–254

Nantucket 339–349
Natural hybrid of *Drosera anglica* Huds. and *Drosera linearis* Goldie in Michigan. 164–170
Neobeckia aquatica 185–200
New Barnstable county records. 280–282
NEW ENGLAND NOTES:
New Barnstable county records. 280–282

Studies on New England Algae II: A second station in Maine for *Nitella tenuissima* (Desv.) Kuetzing. 275–279
New Hampshire 39–92, 357–374
New species 109–163, 350–356
Newfoundland 1–8
Nitella tenuissima 275–279
North America 93–95
Nova Scotia 339–349

Occurrence of the red alga *Thorea violacea* (Batrachospermales: Thoreaceae) in the Hudson River, New York State. 328–338
Ontario 93–95

Peatland 39–92
Plant classification 39–92
Plant community 39–92
Plant-site relationships 357–374
Polygonaceae 350–356
Postman, Joseph 245–254
Pueschel, Curt M., P. Gary Sullivan, and John E. Titus. Occurrence of the red alga *Thorea violacea* (Batrachospermales: Thoreaceae) in the Hudson River, New York State. 328–338

Québec 171–175, 245–254, 375–379

Rare plants 208–244, 350–356
Reveal, James L., Florence Caplow, and Kathryn Beck. *Eriogonum codium* (Polygonaceae: Eriogonoideae), a new species from southcentral Washington. 350–356
Rhodophyta 328–338
Rhodora News and Notes 98–107, 179–182, 285–288, 382–385
Rollins, Reed C., Kathryn A. Beck, and Florence E. Caplow. An undescribed species of *Lesquerella* (Cruciferae) from the state of Washington. 201–207
Rumex pallidus 280–282

Saxifraga gaspensis 171–175
Saxifraga nivalis 171–175
Saxifraga tenuis 171–175
Schnell, Donald E. A natural hybrid of *Drosera anglica* Huds. and *Drosera linearis* Goldie in Michigan. 164–170
Searcy, Karen B. 208–244
Shadbush 339–349
Sonchus palustris Linn. 93–95
Stachowicz, John J. and Taber D. Allison. Vegetation, browsing, and site factors as determinants of Canada yew (*Taxus canadensis*) distribution in central New Hampshire. 357–374
Standley, Lisa 98–107, 179–182, 285–288, 382–385
Status of the deerberry, *Vaccinium stamineum* L. (Ericaceae), in Canada. 255–263
Sterility in the North American lake cress, *Neobeckia aquatica* (Brassicaceae): Inferences from chromosome number. 185–200
Strawberry 245–254
Studies on New England Algae II: A second station in Maine for *Nitella tenuissima* (Desv.) Kuetzing. 275–279
Sullivan, P. Gary 328–338
Synopsis of the genus *Arabis* (Brassicaceae) in Canada, Alaska and Greenland. 109–163
Systematics 96–97

Taxonomy 1–8, 109–163, 245–254
Taxus canadensis 357–374
Thorea violacea 328–338
Threatened species 255–263
Titus, John E. 328–338
Trahan, Rosaire 171–175
Triploid 185–200

Undescribed species of *Lesquerella* (Cruciferae) from the state of Washington. 201–207
Urtica chamaedryoides 96–97
Urtica chamaedryoides Pursh (Urticaceae) reported as new to Cuba 96–97
Urticaceae 96–97

Vaccinium stamineum 255–263
Vascular flora 208–244

Vascular plants 9–38
Vascular plants of Fort Devens, Massachusetts. 208–244
Vegetation 39–92
Vegetation of Pequawket Bog, Ossipee, New Hampshire. 39–92
Vegetation, browsing, and site factors as determinants of Canada yew (*Taxus canadensis*) distribution in central New Hampshire. 357–374
Venn, Joan M. 93–95
Vermont 291–327

White Bluffs 201–207

Zaremba, Robert E. 208–244
Zika, Peter F. 291–327

Volume 97, No. 891 including pages 185–290, was issued August 30, 1996
